

RANSOMWARE READINESS ASSESSMENT FOR YOUR MUNICIPALITY

Don't Get Locked Out — It Will Cost You.

In today's world, you must assume a ransomware attack is inevitable. What you do today can help secure your municipality's future — and we are here to help.

What We Do:

- 1. Ransomware Risk Review** — We identify risks that will allow these attacks to infect your municipality and lock you out of your systems.
- 2. Ransomware Attack Simulation** — We test your employees to see if they are ready to identify and properly react to a ransomware attack.
- 3. Ransomware Responsive Evaluation** — We verify that your municipality can respond and recover from a successful attack so you can maintain daily operations.

What You Get:

Comprehensive Report & Roadmap to make your municipality Ransomware Ready!

Let us get you Ransomware Ready!
